Lunch: Students may bring a sack lunch, or purchase lunch from Jamestown College for \$4.25 per person. Lunch will include: soft shell taco, nachos and cheese, salad bar, dessert and a beverage. **Pre-registration for lunch is required!** Payment should be made to Jamestown College, in the lunch line. Sack lunches can be stored in the Nafus Student Center.

Class A: How Drugs "Operate" in the Body.

Become an amateur doctor as you help the presenter by operating on the patient and exploring the effects of drugs throughout the body. Learn the difference between medicine and illegal drugs, and how you can keep yourself safe.

Class B: You've Got the Dollars, Have You Got the Sense?

Knowing how to manage your own money will give you a huge boost in the world of business. And you can start NOW! You need a good foundation of how to plan a budget (and stick to it!) that includes spending, saving, investing, and giving. With that knowledge, tackling business expenses and income, pricing of products and services, and many other things will be easier for you and you'll be more successful!

Class C: Wired for Success!

Fast growing sites like Facebook, Twitter and YouTube are taking the net by storm. They're fast, free, and best of all, fun! But did you know they can be used for more than talking with friends? In this class we will show you how to use networking sites to start your very own business and how to stay safe while doing it. So take a trip with us through cyber space. The destination is your future! *This class will cover social networking sites such as Facebook.*

Class D: KidWind.

Did you know that North Dakota is the windiest state in the United States? It is! What can we do with all that wind? Wind has the power to shape the face of the earth. People use wind to sail kites, push boats and sometimes surf! We can even use wind to make electricity for entire cities. In this class we will see how we can use wind to make our lives easier. Join us to learn about wind turbines, wind farms and more!
(This class will be two class periods. At the request of the presenter, this class size will be limited.)

Class E: Build-a-Bot. A Robot That Is!

Hurry up and gather 'round for a chance to see the coolest robots in town! Step into our robotics laboratory and learn all about robots. We'll teach you how a robot works and how you can set up a robotics team at your very own school. You'll even get a chance to touch and see a real working robot. You won't want to miss this class!

Class F: Blast Off with Biofuels.

Imagine powering a car, boat or airplane with something that you grew in your garden. Does it sound too good to be true? People do it every day with the help of biofuels. Biofuels are fuels that come from plants and other natural sources. Race car drivers use them every day and chances are so do your friends and family. This class will help you learn all about biofuels. You might be the future inventor of a super biofuel that will power the race cars of tomorrow! *(At the request of the presenter, this class size will be limited.)*

Class G: 119 Fun and Exciting Business Ideas!

Do you like to make money? Do you like to have fun? If so, this is the class for you. Making money can be exciting and rewarding if you know how to do it. Join our class and we will teach you 119 exciting things that you can do to make money.

Class H: Friends of the Forest.

Trees and forests give us many products that improve our lives. We use forest products for food, building materials and paper. Selling special forest products is an opportunity to earn extra money while providing a useable product that doesn't hurt the environment. Special forest products may include food like fruits and nuts; decorative items like Christmas trees and flowering branches; craft products like bird feeders and potpourri; medicines and herbs; or woody biomass for fuel. Participants will make and take home a bird feeder made from a pine cone. *(At the request of the presenter, this class size will be limited.)*

Class I: Advertising: What's Your Sign?

Have you ever wondered why businesses come up with those cool ads to promote their new product? Well, let's check them out! Jamestown DECA members will show you the different types of advertising you see every day, and even help you design your own.

Class J: Fitness for the Fun of It!

Learn fun ways to be fit and make healthy food choices!

Class K: Mr. Potato Head's Nightmare!

Travel on an adventure with Mr. Potato Head through a potato processing facility that makes fresh french fries.

Class L: Broadcasting (In and Out) of the Classroom.

Come to this class and see what's behind the voices on the radio.

Class M: A Day in the Life of a Veterinarian.

This class will give an in-depth view of veterinary medicine by showing different animal species and the surgeries and procedures performed on these species.

Class N: Code Blue!

Nurses work to promote good health and prevent illness. They educate patients and the public about various medical conditions, treat patients, and provide advice and emotional support to patients' families. Join this class to learn all there is to know about nursing. Find out if this profession is for you!

Class O: Dr. Wink.

"It was the winter of 1888. Dr. Helena Knauf Wink steered her exhausted team of horses toward Jamestown, her home in the Dakota Territory. Her sleigh had overturned twice in the wild morning ride through falling snow, but she arrived in time to save the baby. When she finally reached home, a settler from miles out on the prairie was waiting. A family was sick and needed her." This is just one of the many adventures of Dr. Wink. Join this class and be part of a living history performance!

Class P: Create Your Own Website!

Do you have an invention or project that you think others would like? Do you have an idea for a business? Join in this class and learn how to create your very own web page. You'll have fun and you'll discover how a web page can be a powerful tool to advertise your invention, project, or business 24 hours a day! *(At the request of the presenter, this class size will be limited.)*
