LUNCH: Students may pack a sack lunch, or purchase lunch from Minot State University, Bottineau at for \$4.00 per person. Lunch from Minot State University, Bottineau will include: Sloppy Joe, served with potato chips, mini salad bar, rice crispy bar and choice of drink. Pre-registration for lunch is required! Payment can be made when going through the lunch line. Make checks payable to SODEXO. Sack lunches can be stored in Thatcher Hall.

Class A: I is for Idea, Imagination, and Invention.

Give your brain cells a workout and use your Ideas and Imagination to make wonderful Inventions in this hands-on class! Work in teams to make the coolest toy, solve a problem, or just make something fun out of recyclable stuff. It is suggested that all 4th graders attend this class.

Class B: Create Your Own Website!

Do you have an invention or project that you think others would like? Do you have an idea for a home business? Create a web page that you can take home and discover how it can be a powerful tool to advertise your invention, project, or business! (At the request of the presenter, class size is limited to 18 students.)

Class C: Don't Mess with Meth.

Attend this class and learn more about methamphetamines and how Meth can affect your life.

Class D: Building a Community Around Your Dreams.

Everyone dreams! We dream about being teachers, doctors, gamers, engineers, attorneys, business owners, movie stars, and rock stars. We dream about what we will be and what our communities will be like. Ever wonder who puts the pieces of this puzzle together as towns and cities grow? Engineers design that stuff! This interactive class will give you a glimpse of how engineers solve these puzzles and how important your dreams are in making all of this work.

Class E: We're Crude, We're Slippery and We've Got Gas.

Join the "Crude Brothers" along with their band members, 2-Methylhexane, Dimethylcyclopentane, Toluene, Cyclohexane, Hexane, and Uncle Heptane, to see if your Five Carbon Naphthenens could be dehydroisomerized into aromatics. This class is simply a gas!

Class F: Check 1, 2, 3,...

Join us for a fun and interactive way to learn how to successfully manage your checking account, balance a check register, and use a debit card to protect your reputation and keep your credit in good standing.

Class G: High Tech Scavenger Hunt.

It's part hiking, part scavenger hunt, and part hide-and-seek. It's as low tech as the walking stick in your left hand and as high tech as the compact global positioning system (GPS) cradled in your right. (At the request of the presenter, class size is limited to 24 students.)

Class H: Patents, Trademarks, and Copyrights: Protecting Your Creations.

Learn how to protect the ideas that you create! There are a number of ways that you can keep your inventions or ideas safe. You will learn how trademarks protect products and services and how copyrights protect the writings of an author.

Class I: Moo-ve Over, the Animal Doctor is In.

Look through the eyes of a veterinarian and discover the skills you need to become a vet.

Class J: From Idea to Successful Business.

Talk with this panel of entrepreneurs who had an idea and turned it into a successful business. Maybe your idea can lead you to your own business!

Class K: The Exploding Cheeseburger!

Two all beef patties, special sauce, lettuce, cheese, pickles, onions, on a sesame seed bun—what about the ketchup and mustard or maybe even bacon? This class will examine the cheeseburger listing the products used to make it, explain where it comes from, and how it gets to your plate.

Class L: Greenhouse and Horticulture Center Tour.

Who said you can't grow bananas in North Dakota? Take a tour of this greenhouse and be totally amazed by all the wonderful things you see! (At the request of the presenter, class size is limited to 15 students.)
